Sale: **Magic Millions Gold Coast Yearling Sale 2017: 17GPR**  
Lot Number: **752**

Horse: **Eurozone, Dance Hit chestnut colt '14**  
Brands: **n.sh: 2 off.sh: 27 over 5**

Pedigree as in the catalogue.

At the request of Jamie Walter of Proven Thoroughbreds, a post-sale veterinary examination of the above horse was undertaken at the Gold Coast Magic Millions Sales Complex, Bundall, Queensland, on 15/1/2017.

#### Clinical Examination

The clinical examination included heart auscultation, ophthalmic eye examination, teeth examination, limb flexion and joint palpation which were normal. Mild epiphysitis in the knees indicates that some time to mature would be of benefit. A skin mark on the outside (lateral) aspect of the left hind mid-cannon was a recent small skin wound that was well scabbed and healing well; there was a small fresh overnight wound on the left hind fetlock that was minor.

The sheath and testes were normal in appearance and the testes normal on palpation. There was no evidence of previous abdominal surgery, infection or disease, laminitis or ataxia.

The horse was in very good health (condition score 3).

The horse was examined at rest and at the walk only.

This horse was a neat strong horse of a good size for his age (October foal). He showed an active walk with a forward attitude and turned well.

#### Radiographic Examination

The standard set of 36 radiographs was examined in the repository.

A smooth bump on the bone under the shin wound on the lateral aspect of the left hind cannon was smooth and settled.

No significant radiographic findings were noted.

In my opinion, at this time, the colt presented as suitable for purchase as a racehorse as can be determined from the examination performed as described.

The colt is suitable for public syndication and mortality insurance.
